

Smart Energy Choices Just Got More Rewarding with ConnectedSolutions+

Receive upgraded incentives for decreasing energy use during peak times on Nantucket.

Earn generous rewards for your business by temporarily reducing energy usage in your Nantucket facility while helping us maintain a strong, reliable electric grid through the new **ConnectedSolutions+** program.

Select one of the two options that is most convenient for your business and contact an approved Curtailment Service Provider (CSP) to create a curtailment plan that works for you.

	Targeted Dispatch	Daily Dispatch
Take action	Temporarily reduce your energy usage, following the plan developed by you and your CSP, during high energy demand events throughout the summer.	
When?	Up to ten events (3 hours each) will be called the day before curtailment is needed. You will be notified via voicemail, email, and/or text message. Events may occur between 8 a.m. and 9 p.m. from July 1 to September 30.	Up to 70 events (2 or 3 hours each) will be called the day before curtailment is needed. You will be notified via voicemail, email and/or text message. Events may occur between 8 a.m. and 9 p.m. from July 1 to September 30.
How much can I earn?	<p>Incentives are based on your average season curtailment at a rate of \$80/kW*. Responding to more events leads to higher earnings.</p> <p>Example: An average of 50kW of electricity performed would receive \$4,000. (50kW x \$80/kW = \$4,000)</p> <p><i>Rates are for summer 2025.</i></p>	<p>Incentives are based on your average season curtailment at a rate of \$300/kW*. Responding to more events leads to higher earnings.</p> <p>Example: An average of 50kW of electricity performed would receive \$15,000. (50kW x \$300/kW = \$15,000)</p> <p><i>Rates are for summer 2025.</i></p>
